

Dr Jayson Oates

FRACS ENT

Confidence Changes Everything

W

ith over 20 years experience, Dr Jayson Oates is an innovator committed to best practice.

His career is full of firsts:

establishing the first clinic in Western Australia to combine therapists, nurses and doctors working together; building the first accredited twilight sedation hospital in the state; Medical Director of Australia's first nationally accredited course for dermal therapists and cosmetic nurses.

Dr Oates believes in making dreams become real and always puts his patients needs first.

Across his three clinics – Academy Face and Body, Academy Laser and Calibre Clinic – he and his medical team strive to provide the most advanced yet minimally invasive treatment options to address individual concerns.

In response to requests from patients, Dr Oates conducted three years of trials in developing the CALIBRE penis enlargement technique; an alternative for patients wanting to increase penis size without the risks and downtime associated with surgical phalloplasty.

As the demand for CALIBRE continues to grow, another first for Dr Oates is now providing training and certification for other doctors around the world to offer this innovative penis enlargement procedure from their own clinics, including access to a medical support team and forum to ensure continued best practice and innovation.

*Best
advice for
patients*

Intimate body concerns are important and your doctor should make you feel comfortable with your treatment decisions

Practice spotlight

CALIBRE Clinic is a first in Australia dedicated to medical male enhancement. The CALIBRE procedure offers men an advanced injectable phalloplasty procedure to increase penis size without surgery. The procedure can be performed during a one hour in-clinic session with minimal or no downtime and lasts between 18 months to three years or longer.

CALIBRE Clinic also offers the PRP-Procedure, a tissue regenerative therapy aimed at restoring long-term healthy erectile function without pills or surgery.
